

Introducing the Asset Management solution for Registered Social Landlords and Local Authorities managing housing stock. A fusion of the unparalleled experience of MIS Active Management Systems Limited, together with the marketplace's "Best of Breed" technologies delivering integrated Housing Management Systems.

The result is a highly stable and scalable system providing at its core a fully integrated multi-user, real-time Asset Management environment, offering the most feature rich system of its kind in the market place today.

Integration

ActiveH Asset Management provides immediate benefits to the organisation, by providing a nexus for all of your interactions with other systems. The application is designed around the management of properties and assets and it incorporates everything connected to an asset including additional user defined features and functionality. ActiveH Asset Management maximises the functionality of all connected systems and delivers complete management control. In addition it provides an unsurpassed, unique staff friendly, user interface.

Collaboration

Developed in close collaboration with over 30 housing associations and local Councils ActiveH Assets is designed to address all of the short-comings that are commonly identified in existing asset management systems for RSL's.

ActiveH Asset Management is the result which we firmly believe, will meet and exceed your expectations.

If you're looking for an easy to use, full Windows product handling property or asset management, asbestos, annual gas or appliance servicing, recording of maps or images, or are just trying to ensure that all your staff are able to have information at their fingertips, then ActiveH Asset Management is the system for you.

Big enough to deliver, but small enough to care
