

Introducing the complete Lettings application for Housing Associations, Local Authorities and other Registered Social Landlords. A fusion of the unparalleled experience of MIS Active Management Systems Limited, together with the marketplace's "Best of Breed" technologies delivering integrated Housing Management Systems.

The result is a highly stable and scalable system providing at its core a fully integrated web-enabled, multi-user, real-time Lettings environment, offering the most feature rich Choice Based Lettings or Points based system of its any kind in the marketplace.

**Integration**

ActiveH Lettings provides immediate benefits to the organisation, by providing a nexus for all of your interactions with other systems. The application is designed around the management of applications for waiting and transfer lists, and the allocation these to appropriate available void properties and hence void management is also an integrated feature. ActiveH Lettings delivers management control and provides an unsurpassed, unique staff friendly, user interface.

**Collaboration**

Developed in close collaboration with a number of Housing Associations, ActiveH Lettings sets out to address all of the short-comings that the Housing Corporation commonly identifies in existing Housing Letting systems for RSL's.

ActiveH Lettings is the result which we firmly believe will meet and exceed your expectations.

If you're looking for an easy to use, full Windows product handling Points, Date based or CBL waiting lists, and looking to improve void turnaround times, or are just trying to ensure that your staff have their information at their fingertips, then ActiveH Lettings is the system for you.
